Pre-Fabricated Housing for Bungalows - build a fully furnished House in 6-8 months

# ABOUT US

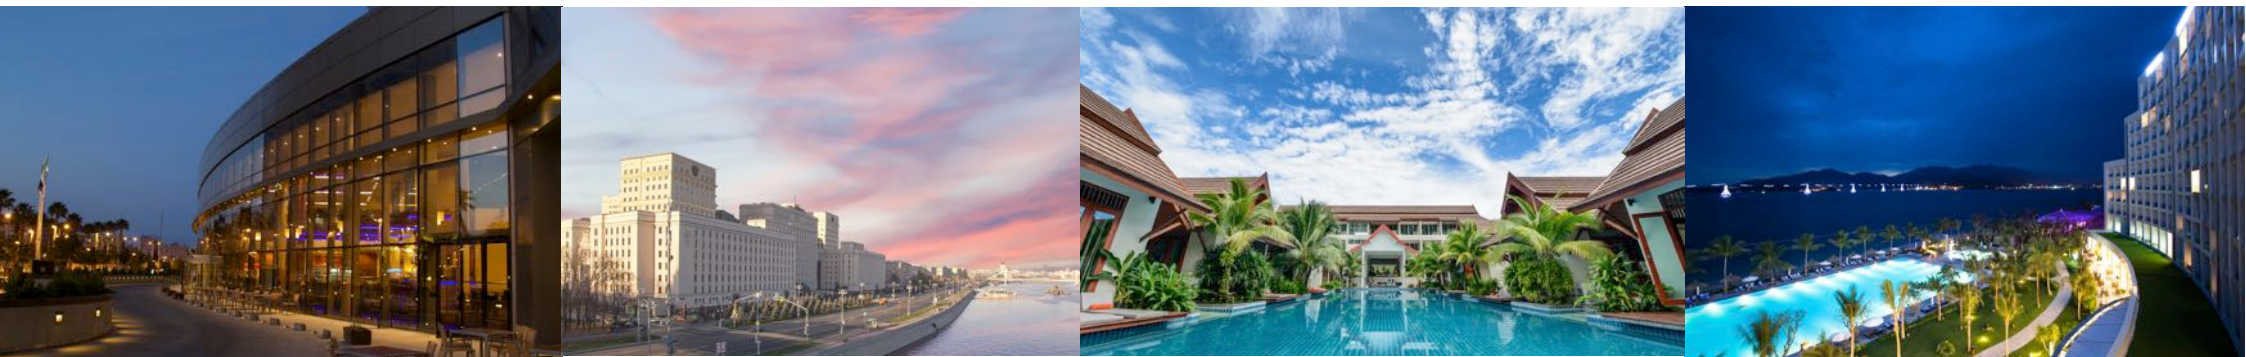

For over 2 decades, Interior Furnishings India & Shirav International has been a sourcing advisor for Furniture, Lighting & Customisation of the unique requirements in the Hotel & Hospitality Industry

We offer direct access to Brands, Suppliers & Manufacturers across the globe, namely, Italy, Denmark, UK, USA, Spain, Portugal, India & more. This allows us to create value for our Clients.

It is our ability in end-to-end and cross-market access, with our technical knowledge and experience, that gives us the ability to deal with the varied requirements of each client.

We are dedicated to taking good care of our customers. By solving the needs for each project, we build long term trusted working relationships. This involves collaborating with specialist and leading suppliers, maintaining open communication, and simplifying the entire process for our clients from specification to execution. Irrespective of the requirements and needs our ethos remains the same for each project

Our values of trust, expertise , open- mindedness and perseverance have made us into a reliable sourcing advisory consultancy that acts as a trusted business partner at the ground level for our clients

# THE HUMAN DIFFERENCE

Unlike agents or buyers, we are not traders or representatives for a group of brands. We are advisors acting solely on behalf of the client customising & sourcing exactly what they require by giving them direct access to manufacturers and suppliers, from leading brands to smaller specialists. To meet the changing requirements of the design industry, we continually develop new supply sources and create an extensive network

Using this method of sourcing has many benefits for our clients; we put in place direct contractual relationships between our clients and all the suppliers, and then manage those relationships as a single point of contact for the client

We oversee the performance of the suppliers and manufacturers, liaising with them in their local language, and managing all customisations and bespoke orders.

We manage all the administration and remove all the risk for the client by taking responsibility for managing the timescales from appointment to execution

Each client and requirement is different, and we relish the opportunity to indulge our passion for design to seek out and find the right manufacturers to fulfil each request. Whether our clients instruct us to source furniture for homes or hotels, we find exactly what they request for that specific property.

## Our Promise.

---

To Procure, Inspect & Deliver Quality Goods at Competitive Pricing for your Project whilst assisting with the Price Discovery Process

## Service

---

What's important is that we know the importance of your time and schedule, and that's where we excel to accurately service our clients

## Quality.

---

Quality over all else, IFI identifies and tests many products before recommending them to our clients, ensuring utmost Quality & Service

# DETAILS OF THE PROCESS

Our process starts with an initial meeting – held either face-to-face or remotely – where we discuss our clients’ project and requirements. We can source high-quality textiles, furniture, home fixtures, lighting, sanitaryware, marble, stone, mosaics, unique decor pieces, and a range of luxury goods on behalf of clients. The products, finishes, timing, budget, location and delivery are discussed in detail and we develop a scope of work.

We then initiate a product search across our extensive network of manufacturers and suppliers and are proactive in seeking out quality goods to meet the requirements of our clients.

Extensive supplier relations are undertaken to understand timelines and establish the feasibility of any bespoke and custom-made pieces.

We organise supplier and manufacturer visits with clients to see manufacturing premises, showrooms and workshops, and see their work first-hand. Along with our clients, advising and assisting in the alternatives and solutions - securing the best prices through our relationships.

Our team then oversees the quality control, production timelines and approval processes with the manufacturers. We liaise with the manufacturers on any customisations or bespoke items.

All the certifications and documentations required for shipping and customs control are prepared and shipping confirmed.
